

Earthquake Preparedness Seminar

Did you know historically the longest time span between large earthquakes on the Hayward Fault is 160 years and we are now at the 157 year mark?

Did you know the upcoming earthquake will be the largest natural disaster in the history of the United States?

Did you know after the earthquake there will be over 165,000 people rendered homeless? Many of them living in homes just like yours.

This seminar, given by Howard Cook, a former Residential Earthquake Damage Inspector, former Berkeley Disaster Commissioner, co-author of two seismic retrofit guidelines, and full time seismic retrofit contractor since 1994 will look at the practical things you can do to make sure you do not lose your home in the earthquake. In this seminar you will learn how to protect your home through earthquake retrofitting no matter how old or how it was built.

EARTHQUAKE DAMAGE TO HILLSIDE HOME IN NORTHRIDGE EARTHQUAKE

Sat. Nov 1, 10:00 A.M. 2939 Ellis St. Berkeley, South Berkeley Senior Center
